

Figure 5-25
U.S. academic and non-academic S&E articles: 1999–2013

NOTES: Articles refer to publications from a selection of journals, books, and conference proceedings in S&E from Scopus. Articles are classified by their year of publication and are assigned to fields of science by matching the journal in Scopus to the National Science Foundation's subfields (appendix table 5-24). Articles are credited on a fractional-count basis (i.e., for articles from multiple regions/economies/sectors, each region/country/economy receives fractional credit on the basis of the proportion of its participating authors). The sum of sectors may not add to field total because of rounding. See appendix table 5-40.
